PROFESSIONAL SUMMARY

Recent BS Industrial Technology graduate with hands-on experience in React, JavaScript, Node.js, Express.js, SQL, and modern frontend development. Passionate about building responsive web applications and continuously improving through personal projects and self-directed learning. Seeking an entry-level Software Engineer or Software Developer role where I can contribute while expanding my technical expertise.

EDUCATION

NEGROS ORIENTAL STATE UNIVERSITY
August 2020 – June 2026

Graduated Bachelor of Science in Industrial Technology
Major in Computer Technology Batch 2026

- Dean's Lister (2020-2021)

EXPERIENCE

IT Support Specialist Intern
ECE Contact Centers
August 2025 – May 2026

- Resolved hardware, software, and network issues for end users.
- Installed and configured workstations, printers, and peripheral devices.
- Assisted with system maintenance, updates, and data backup procedures.
- Helped ensure system security and minimize downtime through proactive troubleshooting.

Team Leader – Technical Innovation Competition
Jan. 2023 – May 2023

- Led a team in developing a sound-controlled safe using Arduino and sensor technologies.
- Programmed embedded system logic and integrated hardware/software components.
- Conducted testing and debugging to improve reliability.
- Placed **4th among 24 competing teams.**

Final Project – Remote-Controlled Bluetooth Car with Mechanical Arm
Team Leader
May 2023 – Jun. 2023

- Led the design and development of a Bluetooth-controlled car featuring an Arduino-powered mechanical arm operated through a custom-built mobile application.
- Managed project planning and team coordination by assigning technical tasks, tracking progress, and ensuring timely completion of project milestones.
- Programmed the embedded control logic and integrated communication between the mobile application and Arduino hardware for reliable wireless operation.
- Performed system testing, debugging, and iterative refinements to resolve connectivity and motion issues, delivering a fully functional prototype that met project requirements.

Thesis
Team Leader
Feb. 2023 – June 2023

- Led the development of a remote-controlled projector stand with automated height and angle adjustment.
- Managed project planning, prototyping, and team coordination from concept to implementation.
- Programmed Arduino-based motor controls for precise wireless operation.
- Tested, debugged, and calibrated the system to improve reliability and performance.

Qualfon Customer Service Representative
Feb. 2022 – Aug. 2022

- Resolved customer concerns while maintaining high service quality.
- Documented customer interactions accurately.
- Collaborated with teammates to consistently meet performance goals.

PROJECTS

- Finance Tracker: https://finance-tracker-seven-dun-45.vercel.app/
- ClassFlow: https://github.com/karlculi44/ClassFlow
- Mini HRMS: https://github.com/karlculi44/Mini-HRMS

TECHNICAL EXPERTISE

- HTML5
- CSS3
- JavaScript/TypeScript
- React
- Tailwind CSS
- Node.js

- Express.js
- PostgreSQL
- MongoDB
- Supabase
- Git
- GitHub
- Vitest & React Testing Library

SOFT SKILLS

- Leadership
- Problem Solving
- Communication
- Team Collaboration
